

Commodity Trading App

Producer Functional Screens with AI Insights

End-to-End Flow: Crop Selection → Harvest → Listing → Transport → Auction
→ Settlement

Crop Selection with AI Insights

- Header: 'AI-Driven Crop Selection'
- Fields: Acres available, Soil Type, Water Availability
- Optional: Cultivation history (crop, variety, company, irrigation schedule, fertilizers, pesticides, harvesting/processing methods)
- AI Insights: Demand-Supply forecast, Price predictions, Best crop recommendation
- Buttons: 'Select Crop', 'View Alternatives'
- Flow: → Confirm crop and proceed to journaling

Commodity Trading App

Producer Functional Screens with AI Insights

End-to-End Flow: Crop Selection → Harvest → Listing → Transport → Auction
→ Settlement

Crop Selection with AI Insights

- Header: 'AI-Driven Crop Selection'
- Fields: Acres available, Soil Type, Water Availability
- Optional: Cultivation history (crop, variety, company, irrigation schedule, fertilizers, pesticides, harvesting/processing methods)
- AI Insights: Demand-Supply forecast, Price predictions, Best crop recommendation
- Buttons: 'Select Crop', 'View Alternatives'
- Flow: → Confirm crop and proceed to journaling

Crop Journaling & Tokenization

- Sections: Seeds, Sowing, Irrigation, Fertilizer, Pesticide, Harvesting, Processing
- Inputs: Dates, methods, names of inputs, photos
- Generate Token: Creates unique digital traceability ID
- AI Insights: Ranking score impact, projected pricing advantage
- Flow: → Stored in history; token can be attached to lot later

Harvest & Commodity Listing

- Form: Commodity, Variety, Grade, Quantity, Bags, Moisture, Quality certificates
- Details: Place of Origin (Lat/Long auto-filled), Producer Name
- Expected Price input
- Option: Sell at origin OR send to market yard (select market location & commission agent if opted)
- Upload: Photos, QC reports
- OTP Confirmation: Verify listing & agent assignment
- Flow: → Commodity listed

Transport Booking

- Option: Individual or Shared Transport (multiple producers)
- Form: Vehicle No, Driver Mobile, Route, Pickup Date
- Producer selects Commission Agent(s) per Lot
- Transporter confirms loading (OTP confirmation)
- Optional: Insurance cover booking linked to transport
- Flow: → Live Tracking enabled for paid subscriptions

Destination Receiving & Confidentiality

- Authorized Receiver: Commission agent staff or buyer rep
- Views: Only assigned commodity lots (confidential)
- OTP: Receiver shares to confirm delivery
- Alerts: Missing/damaged commodities → notify producer for action
- Flow: → Commodity accepted at destination

Market Display & Auction

- Commodity lots displayed with Token IDs and QC results
- Auction Schedule: Daily opening/closing times
- Producer can monitor live auction remotely
- Options: Pause trade for next day OR move to storage (only before sampling)
- Flow: → Buyers place bids

Sampling & Quality Check

- Types: Random or Complete sampling
- If sample fails: Buyer may reject OR reduce price (producer + agent must agree)
- Next highest bidder auto-notified if rejected
- Flow: → If accepted → proceed to weighing

Weighing & Confirmation

- Details: Bags, Variety, Total Weight, Price
- Ledger: Advances taken reflected (commission agent, bank, financial institute)
- Purpose of advance recorded (pledged stock, agri loan, input purchase)
- OTP confirmation for final settlement
- Flow: → Settlement reflected in back-office & producer ledger
