Dear Mr. Pinnamaneni Chandrasekhar and Quantum Pathogenics Team,

We acknowledge receipt of your notice/email dated 27.05.2026. At the outset, all allegations, statements, claims, and contentions made therein, save and except those specifically admitted herein, are denied as false, misleading, and contrary to the true facts and circumstances of the matter.

1. Your contention that no contractual relationship existed between the parties merely because a formal agreement was not physically executed is wholly misconceived and legally untenable. It is a settled principle that contractual obligations may arise not only through a signed document but also through conduct, performance, acceptance of benefits, and commercial dealings between parties.
2. Quantum Pathogenics actively represented itself as an authorized associate of BioCipher Labs and utilized BioCipher's proprietary patient reports, branding materials, marketing collaterals, technical resources, and goodwill for the purpose of soliciting and securing business from hospitals, clinicians, and patients in the Guntur and Vijayawada regions. Such continuous utilization and commercial exploitation of BioCipher's intellectual property and business infrastructure unequivocally establishes acceptance of the commercial arrangement and contractual terms through conduct and performance.
3. Having availed the benefits of the relationship, secured commercial opportunities under the BioCipher brand, and derived financial gains therefrom, Quantum Pathogenics is estopped from denying the existence of a binding commercial arrangement. A party cannot be permitted to accept benefits under a transaction while simultaneously repudiating the obligations arising therefrom.
4. It is pertinent to state that the amount of Rs.2,00,000/- paid by Quantum Pathogenics was towards territorial onboarding, branding support, business development expenses, operational setup, training, allocation of exclusive territories, and other associated infrastructure and administrative costs incurred by BioCipher Labs. The said amount was utilized and expended in furtherance of the commercial relationship and was never intended to be refundable. Consequently, the demand seeking refund of the said amount is wholly untenable and liable to be rejected.
5. It is further submitted that following your communication regarding termination, your representatives specifically requested BioCipher Labs to continue processing critical patient samples that remained pending at various hospital locations. Acting in good faith and prioritizing patient welfare, BioCipher Labs accepted the samples, processed the same through its laboratory facilities, and generated reports accordingly.
6. However, it has subsequently come to our knowledge that Quantum Pathogenics collected the full commercial consideration from the concerned hospitals and customers in respect of the aforesaid diagnostic services. Despite collecting such amounts, you have failed and neglected to remit the corresponding laboratory testing charges and service fees payable to BioCipher Labs.
7. The deliberate withholding of amounts collected for services rendered by BioCipher Labs constitutes unjust enrichment, wrongful retention of funds, and a clear breach of commercial obligations. Your conduct demonstrates an attempt to derive financial benefit from the services, goodwill, infrastructure, and resources of BioCipher Labs while simultaneously seeking refund of onboarding and setup charges already incurred and exhausted.

8. Your notice is conspicuously silent regarding the aforesaid material facts. The suppression of these facts renders your allegations misleading and lacking in bona fides. The claims made by you are without full disclosure of the transactions and dealings between the parties.

9. BioCipher Labs has presented, in the previous mail, the financial records pertaining to all services rendered and dues outstanding from Quantum Pathogenics.

10. In the circumstances, you are hereby called upon to clear all outstanding laboratory testing charges and other amounts lawfully due and payable within **Five (5) days from receipt of this reply**. Upon settlement of all operational and financial liabilities and subject to execution of an appropriate **Mutual Release and Non-Disparagement Agreement**, BioCipher Labs shall consider closure of the commercial account between the parties.

11. Take notice that if you proceed with any frivolous or misconceived legal proceedings against BioCipher Labs, we shall vigorously contest the same and shall be constrained to initiate appropriate civil and commercial proceedings for recovery of outstanding dues, damages arising from unauthorized utilization of proprietary brand assets, loss of business, unjust enrichment, misrepresentation, and such other reliefs as may be available in law. All costs, expenses, and consequences arising therefrom shall be to your sole account.

12. The conduct of Quantum Pathogenics in retaining monies collected from customers for services rendered by BioCipher Labs, while simultaneously seeking recovery of non-refundable onboarding and setup charges, is contrary to settled principles of commercial fairness and equity. BioCipher Labs reserves its right to place all relevant documents, communications, invoices, payment records, laboratory reports, and other materials before the appropriate forum as and when required.

This reply is issued without prejudice to all rights, remedies, claims, contentions, and causes of action available to BioCipher Labs under law and equity, all of which are expressly reserved.

Thanks and Regards,

Dr. M. Rohini Kumar, Ph.D.

Dear Dr. Rohini Kumar and Management Team,

We are writing this final and formal demand regarding your unilateral termination of our partnership and the subsequent withholding of our legitimate refundable deposit through a highly inaccurate and misleading account statement dated 25 May 2026.

Key Facts:

No Written Contract: The partnership operated solely on oral assurances. No MOU, Franchise Agreement, or any signed document exists. The ₹2,00,000 was paid purely as a refundable security deposit to demonstrate our seriousness and commitment.

Immediate Cessation of Operations: Upon receiving your termination notice dated 3 March 2026 (effective immediately), we completely ceased all operations, marketing, and representation of BioCipher from 4th March 2026 onwards, as per your instructions.

Post-Termination Conduct: Any clinician queries received after 4th March were forwarded to your team in good faith. The few post-termination sample collections (e.g., 25 March) were attended purely as a one-time goodwill gesture and do not create any ongoing liability.

Accurate Account Reconciliation (Based on Your Own Statement & Our Records):

Total Amount Paid by Quantum Pathogenics: ₹2,16,500 (full details with UTRs/Transaction IDs attached for your reference).

Legitimate Pre-Termination Dues (Our Responsibility Only):

Bill 3814 dated 13 Feb 2026 (PUO Panel): BioCipher share ₹4,050 → Paid ₹4,500 on 12 Feb 2026

Bill 4290 dated 28 Feb 2026 (MTB PCR): BioCipher share ₹1,350 → Paid ₹2,000 on 28 Feb 2026

Total Legitimate Dues: ₹5,400

All other samples listed in your statement (Bills dated 5 Mar, 10 Mar, 25 Mar, 7 Apr, 16 Apr, 23 Apr & 24 Apr 2026) occurred after termination and are not our responsibility. We have no involvement in them.

Post-termination payments made by us (₹3,000 on 4 Mar & ₹7,000 on 25 Mar) were voluntary gestures of goodwill and do not amount to acceptance of liability for those samples.

Correct Net Position:

Total Paid by us: ₹2,16,500

Legitimate dues only: ₹5,400

Net Refundable Amount: ₹2,11,100

However, in the interest of an amicable closure, we are demanding ₹1,63,500 (₹2,16,500 – ₹53,000 as per your inflated total).

Demand:

You are hereby required to:

Issue a corrected and reconciled final account statement within 3 days, excluding all post-termination samples.

Refund the amount of ₹1,63,500 (or the correct higher amount) to our bank account within 7 days from the date of this email.

Provide complete supporting reconciliation.

Failure to comply within the above timeline shall force us to initiate legal proceedings without any further notice, including:

Civil suit for recovery of money with interest @ 18% p.a. and damages.

Complaint before the Consumer Disputes Redressal Commission for unfair trade practice, deficiency in service, and harassment.

Criminal complaint for cheating and misappropriation of funds.

Action against the company and its directors personally.

We have preserved all email communications, payment proofs (with full UTRs/Transaction IDs as attached), termination notice, and other records. This email serves as a strong legal notice.

We still prefer an amicable and professional settlement. Kindly acknowledge this email and confirm the timeline for refund within 48 hours.

Warm regards,

Pinnamaneni Chandrasekhar

Dear Pinnamaneni Chandrasekhar,

Thank you for your patience.

Please find attached the account details for the Vijayawada and Guntur franchisees from the beginning of the partnership. Kindly process the balance amount and deposit to the BioCipher Lab's account.

<https://docs.google.com/spreadsheets/d/1MOGTO94Py7EQnhlvVQd-RJHcSIQxcyAOXdmz6VxuBMc/edit?usp=sharing>

The Summary:

Franchise Fee (Non - Refundable)	₹ 200,000
Total sample Amount need to Pay from Franchise Partner (Against Samples Billed)	₹ 53,000
Total sample Amount need to Pay from Franchise Partner (Including the Franchise Fee)	₹ 253,000
Total Amount Paid by Franchise Partner	₹ 216,500
Total Amount Pending From Franchise Partner (Due)	₹ 36,500

Note: The refundable value of 1 lakh, which was part of the initial Franchisee deposits and terms, was not deposited to the BioCipher account.

Dear Mr. GM (BD) and Ms. Rohini,
I hope this email finds you well.

This is a follow-up to our email dated 3rd April 2026, wherein we formally requested cancellation of our partnership with BioCipher Labs Pvt Ltd for Guntur and Vijayawada territories, along with the refund of the refundable deposit amount.

Despite multiple follow-ups (telephonic and WhatsApp messages by my partner Mr. Murali), we have only received repeated delays without any resolution. The latest assurance given was that the matter would be resolved on or around Wednesday, 20th May 2026.

Our total transactions with your company are very limited (fewer than 10, including the initial deposit). In view of this, the continued delay is not acceptable. We therefore request you to kindly resolve the matter and process the refund by Wednesday, 20th May 2026.

If you are unable to complete the process by Wednesday or if any clarification is required from our side, please let us know immediately. In that case, Mr. Murali and I will personally visit your office on Saturday, 23rd May 2026 to finalize all accounts, documents, and close the matter amicably without further ambiguity.

Kindly confirm by return email today or tomorrow whether the refund can be processed by Wednesday, or alternatively, confirm a convenient time for us on Saturday, 23rd May 2026.

We expect your prompt response and cooperation to resolve this matter professionally and expeditiously.

Thank you.

Warm regards,

Pinnamaneni Chandrasekhar
